SUBJECT: SPLITEQ M3T FIREFIGHTING LIQUID

Fire Operations (Pty) Ltd is dedicated privately owned tactical firefighting unit, who services the Greater Johannesburg market on a rapid response and deployment basis.

Time is everything when it comes to fire, as is protection of our firefighting teams and the property they are sent to protect in the quickest response time for our clients.

Once we arrive at the scene of a fire it becomes about our equipment and our dedicated firefighters to access the fire and take the necessary action to protect lives and property.

Having been introduced to SPLITEQ's M3T firefighting agent just on a month ago we can report that this product is what it was reported to be. The fires we have used the product on are the following:

- Burning car x 3
- Thatch house fires x2
- Industrial Buildings x 2

Comment from our firefighters: "This product is brilliant".

The fact that this product is simply added to water, is a natural descaler and corrosion inhibitor, is for us as Fire Operations an added feature.

Director: W Engelbrecht

Bank: ABSA / Account: 409766-5661 / Type: Cheque / Branch: 632005

This product has become our “De Facto product” when tackling any fires.

Yours Sincerely

.....
Wynand Engelbrecht
CEO
